## HOUSE OF LORDS REJECTS

### WOMAN SUFFRAGE.

The woman suffrage bill was rejected by the House of Lords by a vote of 104 to 60.

Among those who voted for the bill were Viscount Morley, of Blackburn; the Archbishop of Canterbury and the Bishops of London, Hereford, Bangor and St. Asaph.

Those voting against the bill included the Marquis of Landsdowns, Viscount Esher, the Marquis of Salisbury, the Earl of Halsbury and the Duke of Northumberland.

## THE FORTIFICATION OF THE CANAL.

No mere neutralization of the Panama Canal would ever be respected by any great nation or group of nations engaged in a struggle for supremacy, for self-preservation is the first law of nature and is as applicable to nations as it is to individuals. The entire area around the Panama Canal is nothing more or less than a great fortress, and I have always believed that its government should be essentially military, such as the great fortresses of Gibraltar and Malta, the governor having certain civil functions and officials, but being in absolute authority in practically all matters, so that a change from peace to war may involve the least possible change.

The garrison proposed for Panama will when complete, amount to about 7,000 men.—Maj. Gen. Leonard Wood, in the May World's Work.

## TAFT OPPOSES WAR—WATTERSON

### SAYS, "ON TO PANAMA!"

Decidedly the feature of the annual business meeting of the Loyal Legion Wednesday at Cincinnati was the talk of former President William Howard Taft on the trouble in Mexico. He was introduced to the assembled comrades by General J. Warren Keifer, former Commander and the only Major General of volunteers commissioned by President McKinley in the Spanish-American War.

Judge Taft was opposed to war in Mexico if it could possibly be avoided. The old soldiers before him know how terrible war was. It would involve the expenditure of millions of dollars and cost many precious American lives. It would probably take 300,000 or 400,000 soldiers and \$1,000,000 a day. It was a satisfaction for him to look into the faces of men who had seen real war, because they understood just what it meant. In talking to them he felt that he must talk seriously. Recently 700 or 800 students called on him at New Haven to make a war speech, but he told them what a serious proposition it was and he thought he had changed their minds about wanting to fight.

Great applause greeted a characteristic telegram from Editor Henry Watterson, of Louisville, who, wired Dr. Felix G. Cross, Chairman of the Banquet Committee, as follows:

"It distresses me that I am unable to sit with you tonight, to rub my old bones against your old bones, to laugh with you, sing with you, yea, verily, and drink with you in moderation, forgetting for a little while that we are not as young as we were and may not march together heart to heart and shoulder to shoulder on our way via Mexico to Panama and thence to the equator and the south pole. Take the will for the deed; tell Miles and Keifer and Cowan to touch it lightly and think of me along with this sentiment, which I give you, all the nation's honor and the country's flag with manifest destiny at the fore and devil take the hindmost.

"HENRY WATTERSON."

The telegram was received with cheers and laughter. "There is only one Watterson," was the cry around the tables. The proposal of Chairman Rule to drink to the health of the great Kentucky editor met with unanimous response, and the toast was drunk standing.

When the American housewife again acquires the culinary and housekeeping ability of her grandmother and is willing to use it we shall see a notable reduction in the cost of living, and not before; whether commodity costs fall or not.

## WHEN A NUISANCE ACT IS A NUISANCE.

The "Nuisance Act" which went into effect in Tennessee recently shows how every State prohibition law requires ingenious enforcing legislation. Directed against the three largest cities, Memphis, Chattanooga and Nashville, which have defied the rest of the State to close their saloons, it compels obedience by putting the execution of the law in the hands of the judiciary. No more can recalcitrant officers balk its operation; hereafter, on complaint of ten taxpayers, armed with proper evidence, the courts are authorized to step in directly and close, as a "public nuisance," any place where liquors are sold. The saloons were shut at midnight with an avowal by the police that thereafter the cities would bow to the law they had fought as town against country, for two years. The necessity for such a measure implies a sad reflection upon the ordinary guardians of local peace and order.—The Nation.

## THE DAILY NOVELLETTE.

### After the Curfew.

His feet were flying like the wind;  
His robes were streaming down behind;  
His shoes were on his feet.

Waving his arms violently, the strange, white-robed figure ran shrieking through the quiet streets.

"Kill him! Kill him!" he cried as his patriarchal beard flowed in the chill night breeze.

Soon a crowd was at his venerable but flying heels.

"We musn't let murder be done!" panted one belated citizen who had joined in the chase. "He is older than we are, but we musn't let respect for age hinder us from preventing murder."

The old man ran on.

"Kill him! Murder him! Murder him!" he cried, brandishing his arms as if to urge on the mob at his heels.

"This sounds serious," said another citizen. "I dislike murders of all kinds, but to see an old gentleman commit one is positively distasteful to me."

The old man ran on, raising his voice without assistance, though he must have been close to a hundred.

"Kill him, I say—kill him!" he screamed. "Kill the murderer!"

With a disgusted snort, the pursuing crowd put on the brakes, for they all knew now that the old man was merely a baseball fan running in his sleep.—Louisville Times.

## LOUD ROAR ANNOUNCES

Discovery of Gas in Western Pennsylvania Town.

Ridgway, Penn.—A gas well with a capacity of 8,000,000 feet was struck on the P. R. Smith farm, three miles from here. The drilling has proceeded in the sand only a few feet as yet. The gas issued with a roar that could be heard a great distance and stones were thrown considerably higher than the derrick.

## NEW CRACK

Has Been Discovered in the Famous Liberty Bell.

Philadelphia.—Recent investigation by the city authorities shows that the crack in the Liberty Bell has been enlarged and lengthened, and that the priceless relic may be saved from falling apart they have placed four automatic jacks under it to relieve the strain on the hanging support. Microscopic examinations and mathematical measurements have established the fact that the new crack extends diagonally around about the quarter of the bell's circumference.

## NEVER SUSPECTED KIDNEY TROUBLE

Gained Fifty Pounds in Weight.

Some time ago I was suffering from what I supposed was rheumatism. I became so bad that I could hardly get on my feet from a sitting position. I ran down in weight from 195 to 145 pounds. I tried different kinds of medicine but received little or no help. I saw Dr. Kilmer's Swamp-Root highly recommended for kidney trouble but I never had any idea that my kidneys were affected. I thought I would try a fifty-cent bottle of Swamp-Root and see what the effect would be. I commenced taking it according to directions and in a few days I saw that it was helping me. I used the fifty-cent bottle and then bought three more dollar bottles and they completely cured me. I have gone back to my original weight—195 pounds—and I am a thorough advocate of Dr. Kilmer's Swamp-Root as I believe it to be a remarkable preparation for what it is recommended to do.

#### WILSON GOES TO CIRCUS.

Washington, May 5.—President Wilson threw aside the cares of office to night and went to a circus. Armed with a bag of peanuts for the elephants, he forgot the Mexican question and the Administration's legislative program, while he laughed at the antics of clowns and marveled at acrobatic stunts he thought the big tent.

#### FALLING PENSION LIST

Gives Indication of Mortality Among Veterans of Civil War.—List is Reduced.

Washington.—The pension roll has diminished to such an extent in recent months that it will require \$180,150,000 for pension disbursements in the fiscal year that will begin on July 1 next instead of \$180,300,000, the amount appropriated for the current year.

This interesting fact is brought out in the report on the pension budget which was reported to the House by the Committee on Appropriations. More than forty thousand names have been dropped from the pension roll in the past year on account of death and other causes.

Whether the appropriations for pensions will continue to decline as they have in the past year is open to question, as Congress is constantly passing laws adding more names to the pension roll. For example, immediately following the report of the pension budget the House passed by a vote of 256 to 74, a bill granting pensions to the widows and minor children of officers and enlisted men who served in the Spanish War, the Philippine insurrection and during the Boxer troubles in China. It is estimated that the first year this law is in operation it will involve an appropriation of \$2,500,000. Just how much it will entail afterward the officials are unable to say.

In 1912, just before the Sherwood act was passed, an appropriation of \$150,000,000 was authorized for pensions. In 1913, the first year of the operation of the Sherwood law, the pension appropriations increased to \$171,000,000, and this year, as stated, \$180,150,000 was made available for the purpose.

Without supplemental legislation, such as proposed in the bill proposed, the authorities say that appropriations on account of pensions will decline materially each year. The report on the pension budget shows that from the beginning of the government to date the enormous sum of \$1,557,859,821 has been paid out on account of pensions.

The Spanish War pension bill passed by the House grants \$12 monthly to the widows of honorably discharged soldiers and sailors who served in the war of 1898, the trouble in the Philippines and in China, and \$2 a month for each child under 16 years of age, provided the widow shall have married the soldier prior to the approval of the law. The pensions are to be limited to widows without means of support other than their daily labor and an annual net income not exceeding \$250 a year.

The report on this bill sets forth that approximately 43,000 men served in the army in the wars and insurrections mentioned. It is pointed out that the bill only extends benefits that are now shared by the widows and orphans of other wars and Indian campaigns.

RIGHT OFF THE BAT.

Sir Peter Childs of the Portsmouth team says, "Give me an outfielder and I'll stand out." As Maysville has an extra outfielder, and a good one, too, they might trade him for Nick Carter. What say you Cupid?

There is a new umpire in the Ohio State league and his name is Price. He hails from Lancaster and succeeds Varley, who imbued with pugilistic tendencies, was not permitted to slap any of Bobbie Read's pampered kids on their filthy white wrists and gum the mechanism of their baggys.

Infielder Clauser, who was with Maysville last year, has joined Dick Smith's Ironton Natters. He succeeds Keating, who will go back to the corner grocery and pile canned goods for Seth Simpkins. Keating is young and ambitious and he will be heard from later.—Portsmouth Times.

#### CAUSE AND EFFECT

Good Digestion Follows Right Food.

Indigestion and the attendant discomforts of mind and body are certain to follow continued use of improper food. Those who are still young and robust are likely to overlook the fact that, as drooping water will wear a stone away at last, so will the use of heavy, greasy, rich food, finally cause loss of appetite and indigestion.

Fortunately many are thoughtful enough to study themselves and note the principle of cause and effect in their daily food. A New York young woman writes her experience thus:

"Sometime ago I had a lot of trouble from indigestion, caused by too rich food. I got so I was unable to digest, scarcely anything, and medicines seemed useless."

"A friend advised me to try Grape-Nuts food, praising it highly and as a last resort, I tried it. I am thankful to say that Grape-Nuts not only relieved me of my trouble, but built me up and strengthened my digestive organs so that I can now eat anything I desire. But I stick to Grape-Nuts."

#### BACKBONE

By Walt Mason.

From Yulea Dam to Yonkers the man of backbone conquers, where spineless craters fail; all obstacles overcome, he goes along a humming, and gathers fame and kudos. No ghosts of failure haunt him, no grizzly bogies daunt him or make his spirits low; you'll find him scratching gravel wherever you may travel, from Butte to Broken Bow. From Winnipeg to Wooster you'll see this cheerful rooster, this model to all men; undauntedly reverses he wastes no time in curses, but digs right in again. His face is always shining, though others he's repining; you cannot keep him down; his trail is always smoking while cheaper men are creaking about the old dead town. From Humboldt to Hoboken he leaves his sign and taken in buildings high and grand; in factories that flourish, in industries that nourish a tired, paucine head. He brings the work to loilers and fills with bread and broilers their trusty dinner pails; he keeps the rhesus ripping, the big trip-hammer tripping, the workman driving nails. All honor to his nobility—drink to him in gold and red—the el who huts.

It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking
